2017.05	<u>PP-407</u>	The ability to save 3d PDF file from Creo Parametric as a neutral file attachment.
2017.05	<u>PP-406</u>	Support for automatic storing of Sat files for models in Creo Parametric.
2017.05	<u>PP-405</u>	Support for automatic storing of Parasolid files for models in Creo Parametric.
2017.05	<u>PP-396</u>	Generate STEP button added to PDM Toolbar
2017.05	PP-394	The ability to have automatic DXF created only of a single, specific sheet.
2017.05	PP-392	Support for Creo 4.
2017.05	<u>PP-388</u>	Ability to save .STL file from Creo Parametric as a neutral file attachment.
2017.05	<u>PP-356</u>	Support for automatic storing of Step files for models in Creo Parametric.
2017.05	PINV-211	Support for Inventor 2018.
2017.05	PI-171	When exporting DXF from IronCAD, option to set "True Curves".
2017.05	PI-170	Support for IronCAD 2017.
2017.05	PA-126	Support for AutoCAD 2018.

2017.05	<u>DDMC-5557</u>	Develop New DDM Admin Client using latest development technologies.
2017.05	<u>DDMC-5556</u>	Control of Group permissions per Business Unit
2017.05	<u>DDMC-552</u>	The ability to password protect PDF files to prevent editing by third-parties.
2017.05	DDMC-5463	Support for SQL Express 2016.
DDM	<u>DDMC-5436</u>	The ability to restrict which users can log into the DDM Web Client (while still allowing login to DDM Office)
2017.05	DDMC-5353	Using workflow custom xml, an option to verify folder contents all set to a specific status.
2017.05	DDMC-5352	Using workflow custom xml, an option to verify folder contents all have certain attribute values set (i.e. not empty / null).
2017.05	DDMC-5348	All menu options changed from 'Send Folder To' to 'Workflow'.
2017.05	DDMC-5337	Support for DDM Server on Windows Server 2016.
2017.05	<u>DDMC-5335</u>	When saving models / drawing from CAD, if they already have a neutral file attached then the file should be re-generated, regardless of the Admin setting for automatic generation.
2017.05	DDMC-5321	'Graphical Workflow' labels replaced with 'Workflow' and a blue 'play' icon instead of footsteps.
2017.05	<u>DDMC-5319</u>	The ability to have users accept company-specific terms and conditions of use, when first logging into DDM.
2017.05	<u>DDMC-5225</u>	An Admin option to allow PDF files exported from or viewed through DDM to be password protected to prevent modification.

2017.05	DDMC-5137	Using Workflow XML customisation, an additional PRE_SEND_TO_STEP_ACTION check to prevent arrival at a step until content has been changed to state of released.
2017.05	<u>DDMC-4961</u>	2.4.1 Creo Parametric 3D PDF
2017.05	DDMC-4819	Default install Workflow for CAPA, Non Conformance, Internal Audit to be included in default installation.
2017.05	DDMC-4819	Default install Workflow for CAPA, Non Conformance, Internal Audit to be included in default installation.
2017.05	<u>DDMC-4673</u>	In DDM Admin, when specifying which neutral files are to be automatically created on save from CAD, option to determine whether Part, Assembly or both should be created.
2017.05	<u>DDMC-4039</u>	The option to automatically store Step files as attachments to Part records (only) in DDM (when stored from Creo).
2017.05	<u>DDMC-3726</u>	3D pdf of parts and assemblies stored from SolidWorks to be attached as previews.
